THE COUNCIL FOR RESEARCH IN VALUES AND PHILOSOPHY

PURPOSE

Today there is urgent need to attend to the nature and dignity of the person, to the quality of human life, to the purpose and goal of the physical transformation of our environment, and to the relation of all this to the development of social and political life. This, in turn, requires philosophic clarification of the base upon which freedom is exercised, that is, of the values which provide stability and guidance to one's decisions.

Such studies must be able to reach deeply into the cultures of one's nation—and of other parts of the world by which they can be strengthened and enriched—in order to uncover the roots of the dignity of persons and of the societies built upon their relations one with another. They must be able to identify the conceptual forms in terms of which modern industrial and technological developments are structured and how these impact human self-understanding. Above all, they must be able to bring these elements together in the creative understanding essential for setting our goals and determining our modes of interaction. In the present complex circumstances this is a condition for growing together with trust and justice, honest dedication and mutual concern.

The Council for Studies in Values and Philosophy (RVP) is a group of scholars who share the above concerns and are interested in the application thereto of existing capabilities in the field of philosophy and other disciplines. Its work is to identify areas in which study is needed, the intellectual resources which can be brought to bear thereupon, and the means for publication and interchange of the work from the various regions of the world. In bringing these together its goal is scientific discovery and publication which contributes to the promotion of human kind in our times.

In sum, our times present both the need and the opportunity for deeper and ever more progressive understanding of the person and of the foundations of social life. The development of such understanding is the goal of the RVP.

PROJECTS

A set of related research efforts is currently in process; some

were developed initially by the RVP and others now are being carried forward by it, either solely or conjointly.

1. *Cultural Heritage and Contemporary Change: Philosophical Foundations for Social Life*. Sets of focused and mutually coordinated continuing seminars in university centers, each preparing a volume as part of an integrated philosophic search for self-understanding differentiated by continent. This work focuses upon evolving a more adequate understanding of the person in society and looks to the cultural heritage of each for the resources to respond to the challenges of its own specific contemporary transformation.

2. *Seminars on Culture and Contemporary Issues*. This series of 10 week crosscultural and interdisciplinary seminars is being coordinated by the RVP in Washington.

3. *Joint-Colloquia* with Institutes of Philosophy of the National Academies of Science, university philosophy departments, and societies, which have been underway since 1976 in Eastern Europe and, since 1987 in China, concern the person in contemporary society.

4. *Foundations of Moral Education and Character Development*. A study in values and education which unites philosophers, psychologists, social scientists and scholars in education in the elaboration of ways of enriching the moral content of education and character development. This work has been underway since 1980 especially in the Americas.

The personnel for these projects consists of established scholars willing to contribute their time and research as part of their professional commitment to life in our society. For resources to implement this work the Council, as a non-profit organization incorporated in the District of Colombia, looks to various private foundations, public programs and enterprises.

PUBLICATIONS ON CULTURAL HERITAGE AND CONTEMPORARY CHANGE
